OUR IDENTITY

BELASSI

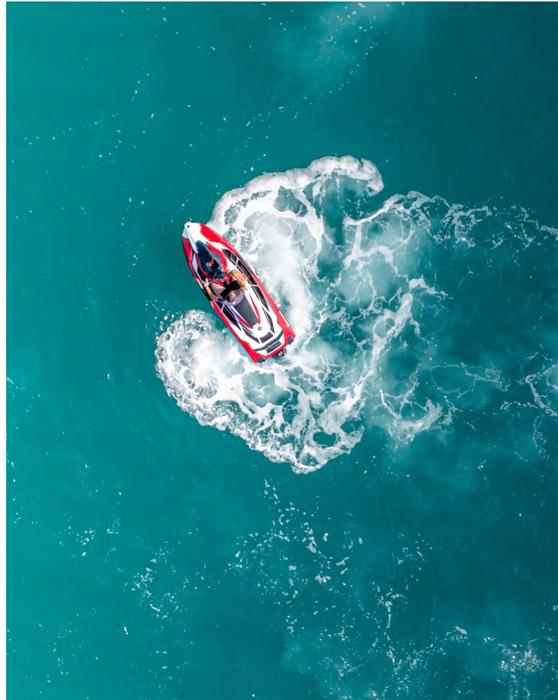

We live for world-class handcrafted Personal Watercrafts and superior turbocharged Marine Powertrains. Elegance combined with power. This is it.

MORE IN DETAILS

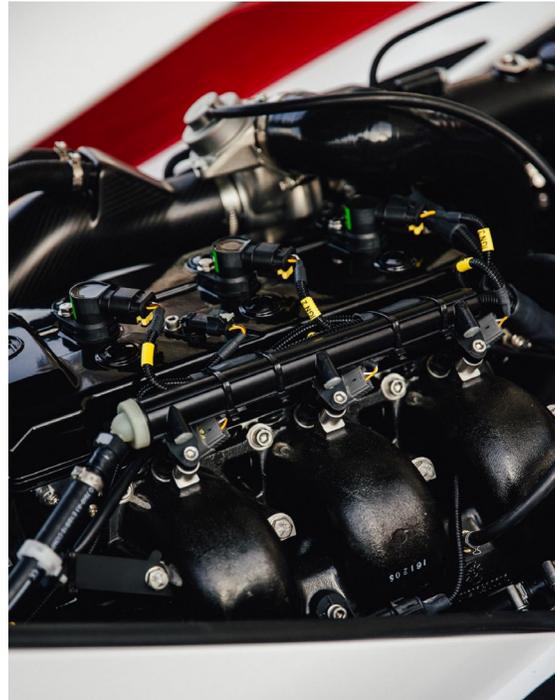

You deserve the best and the product must impress, to give emotions. With this concept Belassi was created in 2018, but before giving shapes and lines to the final product, we leveraged our expertise in the engine field to create something that will amaze. Everything started with the engine, designed and assembled manually with the sole purpose: to make you say “wow”.

We claim the exclusive status of being the only ones in the world to have a turbocharged engine in series production in a Personal Watercraft. Our refined combination of performance, craftsmanship, and uniqueness are unmatched and place us in a category of our own.

OUR EXPERTISE

HYPERCRAFTS

POWERTRAINS

ENGINEERING

THREE DEPARTMENTS WITH ONE VISION

Our vision of creating high-performance, exceptional watercraft for exceptional people cannot be realised without redefining the entire project from start to finish. From the inside out. From the engine itself to the elegant lines of the deck design. That's why Belassi is synonymous with the Jet Powertrains, Marine Hypercrafts and Engineering departments.

Together with all three departments, we can create something unique.

BRAND VISION

Belassi creates high-performing
extraordinary personal watercrafts
for extraordinary people.

WHERE IT ALL BEGINS

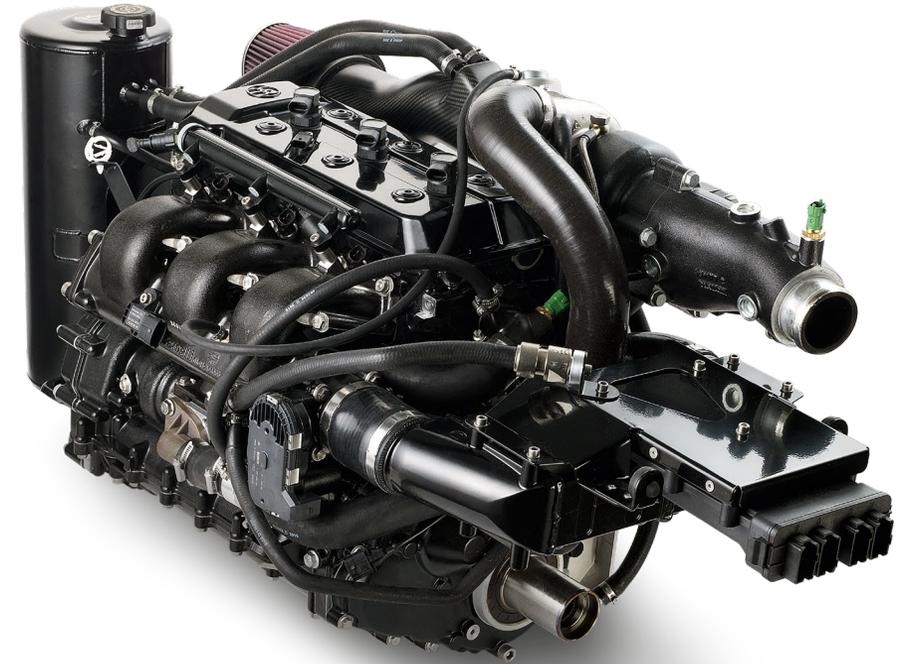

LOCATED IN THE HEART OF AUSTRIA

The Company in Austria lays the foundations for our own engine development, product design and engineering.
One passion, one team, one goal, under one roof.

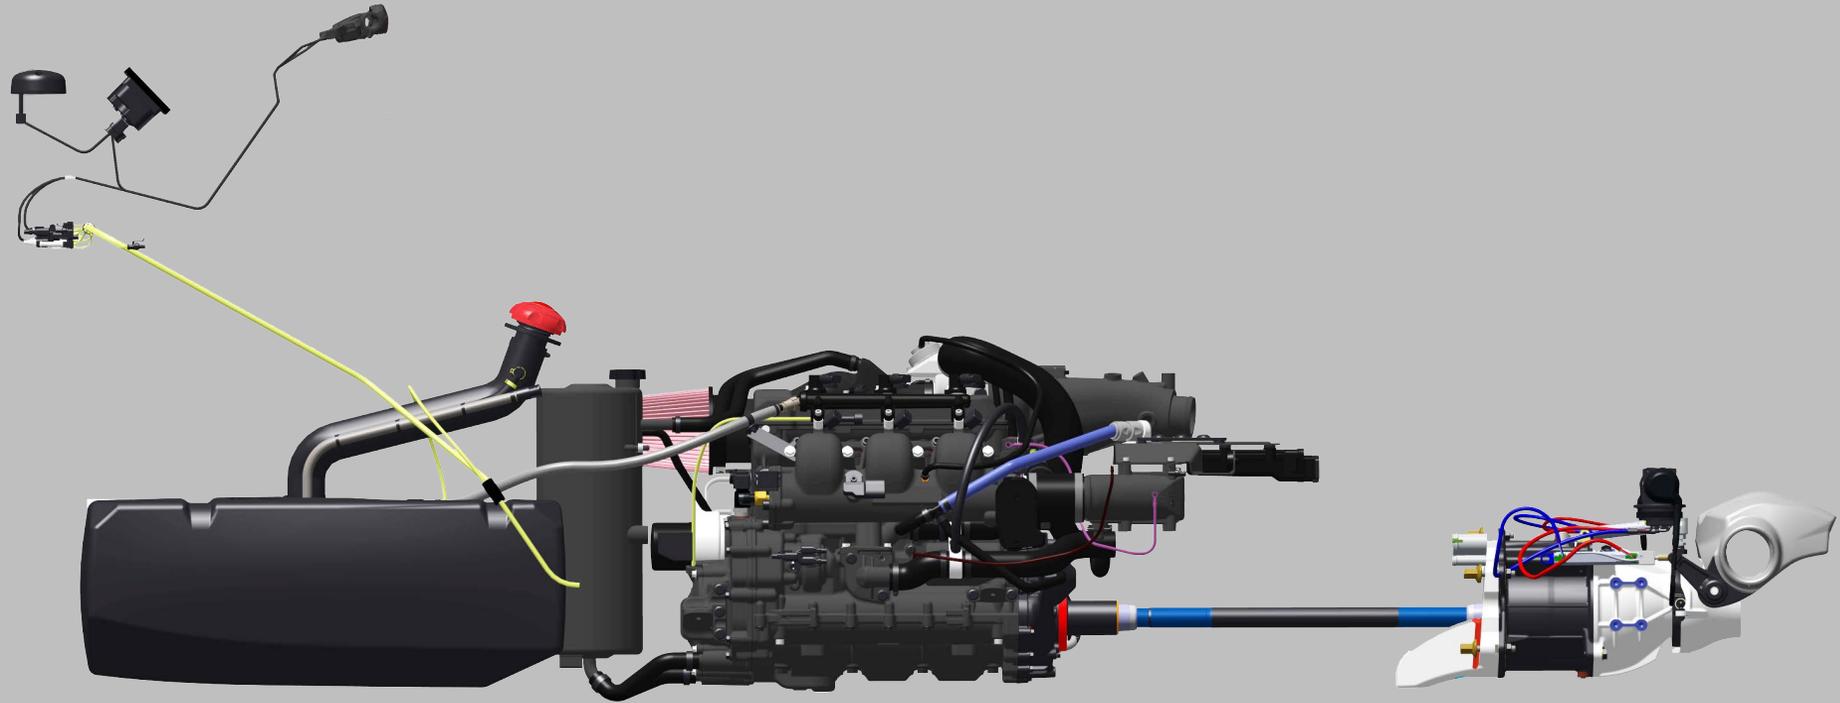

***THE BELASSI
MARINE POWER TRAIN.
FROM VISION
TO REAL EMOTION.***

OUR BEATING HEART

At the core of our product lies our engine crafted by Belassi in Austria, with a commitment to superior power, torque, and fuel efficiency, it ensures an unparalleled experience without compromise. In our low-volume production, we prioritize our customers through a specialized and a customer-centric approach.

THE MARINE POWERTRAIN

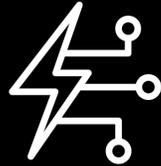

UNIQUE VALUES & BENEFITS

COMPACT SIZE
PLUG & PLAY
EASILY ADAPTABLE

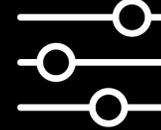

MPU APPLICATION VARIANTS

With its small dimensions and weight of only 117 kg - the engine can be mounted on small boats without compromises

To simplify the whole process, the MPU can be connected to a battery, a fuel source and a water hose and then started up

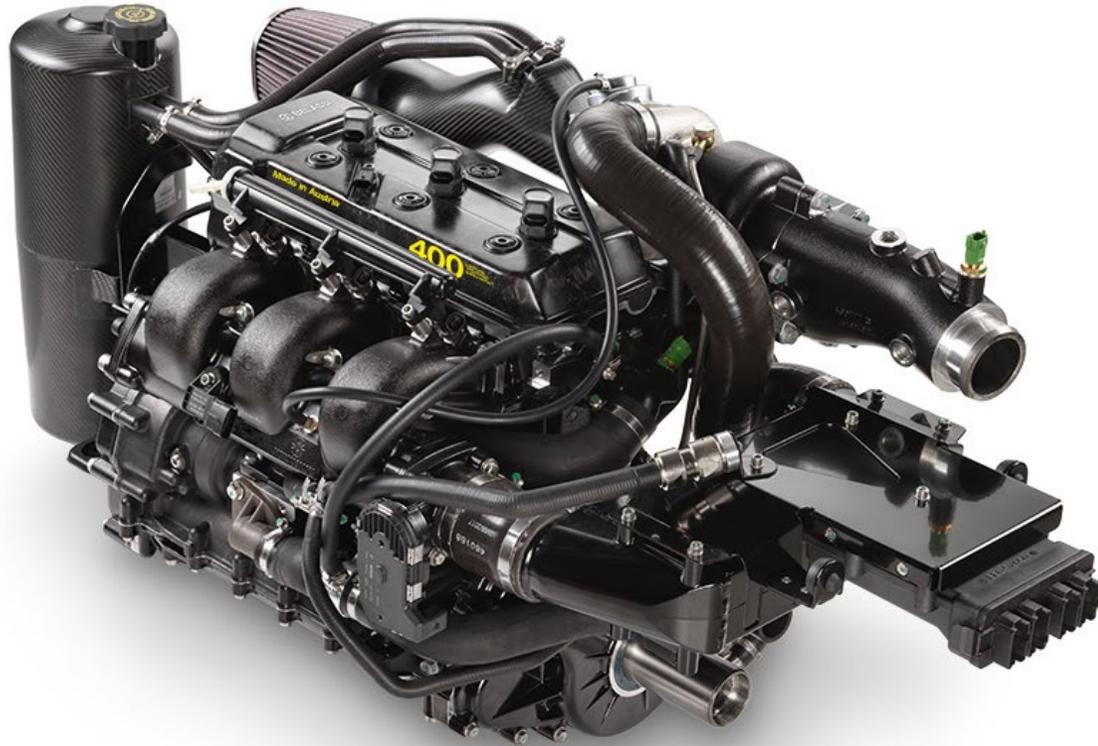

All technical information for coupling shafts, motor mounts and electronic communication protocols will be made available

We focus on a customer-centric approach, offering flexibility with a minimum order quantity of just 1 piece

AVAILABLE PACKAGES WITH PEAK POWER

 BELASSI

OUR PRIDE & JOY

Belassi's marine hypercrafts are a technological masterpiece redefining the world of watersports. Our relentless quest for perfection in performance and design has resulted in the most powerful personal watercraft of our time — all in one finely-tuned piece of luxury. Belassi is not intended for mass production. Every part is individually machined and assembled by hand and eyes to ensure exceptional quality for each and every marine hypercraft.

OUR MISSION

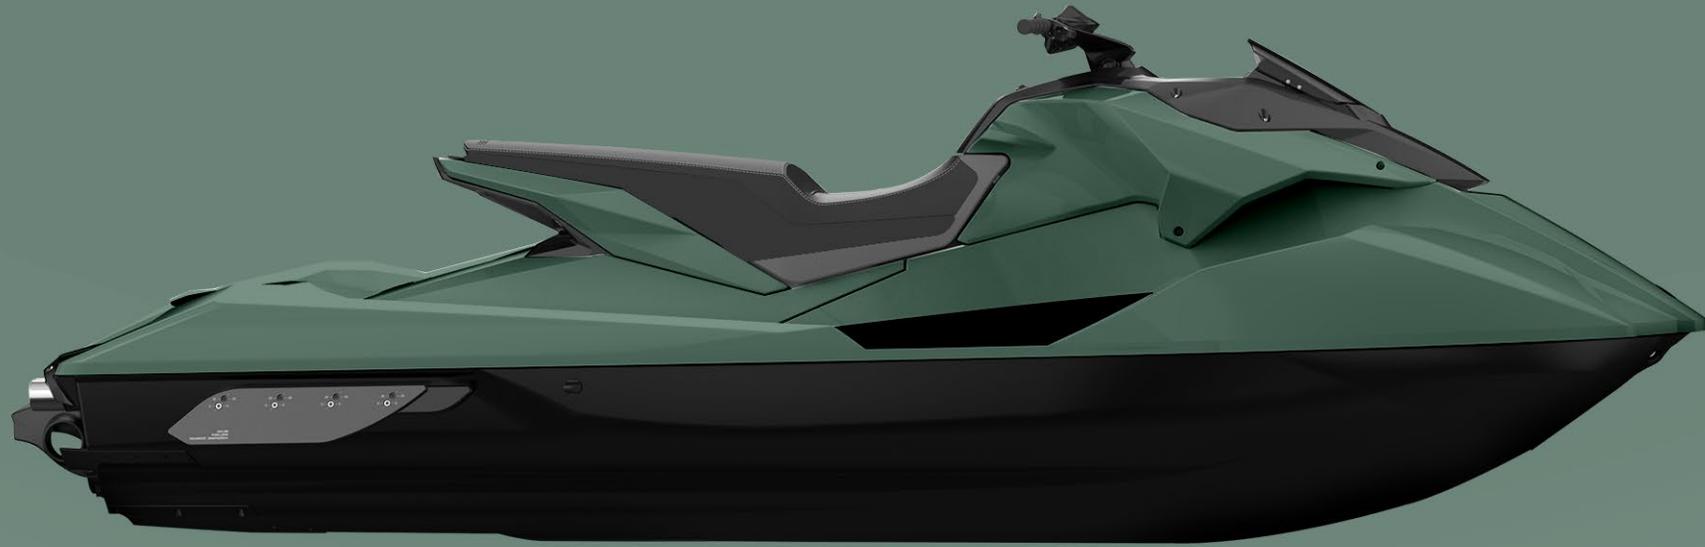

Every human is unique - so are our
personal watercrafts.

CUSTOMISATION

No other brand can match and fulfill a customer's individual finishing needs and requests like Belassi. We deliver to the most individual request to help fulfill the expression of personality.

HANDMADE IN AUSTRIA

Thanks to our production in Austria, we set high standards regarding the end product but also of the manufacturing circumstances.

*THE FIRST AND ONLY COMPANY IN EUROPE TO MANUFACTURE THE ENGINE
AND THE ENTIRE PERSONAL WATERCRAFT ITSELF.*
